We have a team of sub contractors for various work, associated with us.

Designing

We undertake comprehensive landscape design projects using advanced tools and technologies to deliver clear and effective presentations. Our focus is on creating sustainable and functional landscapes. Our services include layout planning, material and plant selection, 2D & 3D presentations with walkthroughs, BOQ preparation and tender support. We also provide standard operating practices and execution checkpoints to ensure quality implementation of the work. Largest designed project is 95,000 sqm.

Plants Nursery

Location: Solapur Road Pune
Plants Area 3.5 acres
Lawn area 5 acres

We have several indoor & outdoors plants at our nursery.

Artificial Lawn & Plants

When there is a constraint of growing / maintaining the natural plants / lawn, we support the requirement by supplying artificial lawn & plants

Soft scape

Our execution services include the plantation of lawns, shrubs, hedges, trees, native species and special aesthetic plants, ensuring high-quality landscape development. We are a preferred vendor for several clients having successfully executed four projects based on our quality and service standards.

Large projects like 90,000 sqm
150 + Projects in various type of spaces across India.

We bring to life your designs & visions of your garden by transforming a barren piece of land into green wonderland tailored to your ideas & tastes.

Pots & Plants Setup

All plants are beautifully complemented with decorative planters that enhance their aesthetic appeal. We offer a wide range of FRP, Plastic & Ceramic pots in various sizes, shapes, and finishes to suit different landscape and interior design needs. Our Pots & Plants display setup in Pune showcases multiple combinations of planters and plants, allowing clients to explore a variety of styles and make the right selection with ease. This integrated display helps clients conveniently choose both plants and planters at one place.

Civil Projects

From concept to construction, we deliver expert architectural planning and reliable civil contracting services tailored to residential and commercial projects with a focus on quality, functionality, and timeless design.

Structures

A specially designed & dedicated scape in the premises has a special importance. This can be a trellis, gazebo, pergola or a covered area under solar panels.

Water Features

We love to transform our gardens into a sensorial experience by adding the soothing sounds & calming nature of water features designed & built by our team of in-house experts. We design & execute various types of water features like, fountains, ponds, lotus ponds, water collection tanks with aeration & Peragolas.
